Hardware Doors Ironmongery Sanitary Fixtures

Period Brass has created a reputation as America's finest solid brass architectural hardware manufacturer. Today, our skilled artisans combine that tradition, combining old world craftsmanship, patented finishes, innovative design and the world's most advanced computer-aided metal working technology. Period Brass supplies America's finest solid brass, decorative hardware for residential and commercial applications. Each Period Brass piece is hand-finished, often requiring as many as twenty different steps to meet our exacting standards. ♣

Welcome to the Flowserve Brand Standards Resource Center

As a strong and consistent brand identity is one of the ways Flowserve will achieve its vision of becoming the most recognized and preferred global supplier of fluid motion and control products and services. The Flowserve brand identity is supported in everything that touches the company's associates, partners and customers.

This site is intended to provide you with the necessary tools to consistently use and promote the Flowserve brand elements. We welcome and encourage your feedback while using this site.

Instructions

Using the links on the left, you can select your area of interest. These categories will expand into sub-categories where you can find information that is more specific to your needs. Some of the most popular links are located on the right side of this screen. If you have any questions or feedback while using this site, contact Janet.Slyter@flowserve.com or use the feedback button to the right.

Identity Standards

Home » Identity Standards » Usage Guidelines

Standards and Guidelines

Performing and communicating in a consistent manner are critical to building a powerful brand. In addition, consistent use of carefully constructed visual elements is necessary for building a harmonious and cohesive brand identity. While the Flowserve logo provides the strongest visual representation, proper use of heritage names, color, typography, and other imagery in all communications will ensure that the Flowserve brand becomes the most recognized, most trusted brand in its markets.

Flowserve Logo

The Flowserve logo is the cornerstone of our brand identity. Its bold color and simple design provide a memorable image and should be given prominent and appropriate presence in all of our communications.

Flowserve Primary Color Palette

The Flowserve primary logo colors, set Pantone 485 Red and Pantone Warm Gray 8, 435 Red, chosen to attract attention and stand out in a crowded market, perfectly complement the subtle corporate tone of Warm Gray 8. When used consistently and properly displayed in all media types, these colors will help immediately identify the Flowserve brand.

	Flowserve Red				
	Print, 1- and 2-color	Pant. 4-color	Web color	On-screen	
		C = 0	M = 100	R = #ff0000	S = 205
	Pant 485	M = 100	Y = 100	G = #000000	S = 3
		K = 0	D = 90	B = #000000	S = 0
	Flowserve Gray				
	Print, 1- and 2-color	Pant. 4-color	Web color	On-screen	
		C = 0	M = 9	R = #999999	S = 144
	Pant Warm Gray 8	M = 9	Y = 16	G = #999999	S = 132
		K = 42	D = 98	B = #999999	S = 118

In one-color printing, it is acceptable to use black for the logo or to white it out of the printed color.

Black

White

Customer Satisfaction Survey for Flowserve Flow Control Division

Customer relations are extremely important to Flowserve Flow Control Division. To ensure we are providing you the level of customer service you expect from us, we have implemented a customer satisfaction survey program that will allow you to grade our performance, make direct and compare our performance against other suppliers.

Please take a few moments to complete the following survey. Before submitting the survey, you are asked if you would like to participate in future surveys. If you would like to participate in follow-up surveys, please ensure that your e-mail address is included in the notification. Follow-up surveys will be conducted in a timely fashion.

Everyone who completes the survey will be awarded a special Flowserve gift basket. In addition, if you enter a contest, you will be entered into a random drawing for a \$200 gift certificate for Canada's, one of the world's leading outdoor outfitters.

The personal information you submit with the survey will be used to provide us with statistics of companies and individuals that have participated in our surveys. Any and all information you submit with the survey will be treated as confidential, and will not be disclosed outside of Flowserve Corporation. If you would prefer not to submit any personal data along with your survey answers, please check the "No" button after completing the forms required here below. Please note that without your name and address, we cannot send you your free fishing lure.

We thank you for your response.
